

Our Work

We believe that a strong and healthy community is one in which Canadians feel supported, empowered, valued, and heard.

Now in its 12th year, Make A Change Canada was established in 2004 as a national nonprofit and charitable organization that provides employment and skills training to Canadians who face challenges to finding or maintaining employment in today's labour market.

Our clients include people facing all types of challenges, from those who are living with a disability or chronic health issue, to those living in remote areas. Some are youth or stay-at-home parents, while others are older workers, Aboriginal Peoples, new Canadians, and LGBTQ (lesbian, gay, bisexual, transgender, queer) people. Whatever the circumstance, we are here to help.

Barriers to employment can affect all classes, creeds, and ethnicities. Our mission is to help Canadians from coast-to-coast overcome these barriers and realize their full potential.

Our programs are available online 24 hours a day across Canada and can be accessed from the comfort and convenience of your own home—wherever you are! As long as you have internet access, you have access to positive career change.

"If we can awaken the passion within, we can achieve almost anything."
- from the Make A Change Canada vision statement.

Make A Change Canada is looking for students...

- Who have an interest in becoming employed or self-employed
 - Who already have basic computer skills
 - Who may find it difficult to work outside their homes
 - Who may find it difficult to attend regular scheduled training programs in their communities
 - Who have the desire to learn and strive for their own independence
-

Welcome to our new website.

This site reveals our **new look**, our **new name**, and gives you the **tools you need** to follow or support our charitable mission. There is so much to explore including **client success stories**, **videos**, our **blog**, the ability to **donate online**, and our **schedule of events**.
