

WINTER 2020 START DATE! Introductory Certificate in Applied Web Development and Design

APPLY ONLINE TODAY! Introductory Certificate in Applied Web Development and Design

Kickstart your career in the IT sector or start an affordable home-based web design business!

Start date: Monday, January 13, 2020

The Introductory Certificate in Applied Web Development and Design is a **six-month, online web technology program** that teaches participants how to create custom websites from scratch. Students gain the necessary foundation in site planning, HTML/CSS page coding, template creation, web marketing, and site customization required for competency in the technology field. The next intake begins **January 13, 2020**.

(Our programs are fundable under available skills training programs [PTIB Exemption; ESDC Certification File No. 7009/13579].)
