

## Why Give

### **Your financial support will help more Canadians from coast to coast realize their full potential.**

Think about someone you know personally, or perhaps know about, who is currently facing a barrier to employment. This person may have a disability that prevents them from commuting to work without facing unbearable pain and struggle, a stay-at-home mother who needs to care and provide for her family, a member of an Indigenous community who does not have the same employment opportunities that most do, or an adult living in a rural or remote area who is unable to make a daily commute. Your support means that these groups have an option. Your support means that Make A Change Canada will be there.

Moving into 2019, Make A Change Canada needs your support more than ever. The support we receive from donors is truly the life-blood of our organization. Without your contribution, Make A Change Canada is unable to provide the essential specialized programs and services that provide hope and a viable option for those facing challenges to employment.
